

Town Council Agenda Report

SUBJECT: Quasi Judicial Hearing: Rezoning

CONTACT PERSON/NUMBER

Name: Mark Kutney, AICP
Phone: (954) 797-1101

TITLE OF AGENDA ITEM:

ZB 1-4-00 Howard J. Zimmerman, petitioner/Seventy-Five East, Inc., owner - General Address 14901 Orange Drive/Generally located on the north side of Orange Drive on the east side of Shotgun Road and the I-75 on-ramp.

REPORT IN BRIEF:

The approval of the 1995 annexation agreement anticipated this site would be rezoned to the B-3 District consistent with the existing "commercial" land use designation. Therefore, the petitioner is requesting to rezone the subject property to the B-3, Planned Business Center District. The petitioner has also voluntarily offered to restrict certain uses permitted within the B-3 zoning district should this rezoning be approved (see attached list of uses to be restricted). This request is a continuation of the request for rezoning for the abutting property to the east, also on this agenda under application ZB 1-3-00.

This property differs from the abutting property to the east, only by the land to the north which is land use designated Residential 1 du/ac. Staff believes the impact of the proposed development to the residential land to the north will be minimal, as a wall and landscape buffer is required by code. The petitioner will also be contributing additional land along the north property line for a recreational trail which will increase the width of the buffer. Most importantly, the residential land to the north is currently vacant which allows the developer of the this property to implement good design practices to further reduce any negative impacts to residential units placed along the north property line. All other properties to the east, west and south are buffered by similar or less intense land uses.

As noted above, this development and the adjacent property requesting the B-3 zoning to the east (ZB 1-3-00) may increase traffic between 10,000 and 13,000 trips per day each, resulting in a Level of Service below the adopted Level of Service "D" by the Town. The petitioner acknowledges that improvements are necessary to Orange Drive to accommodate the projected site traffic, and is proposing to expand the roadway from two lanes to four lanes between SW 142 Avenue (Boy Scout Road) and SW 154 Street (Shotgun Road). The petitioner is also proposing a bridge across the new river canal connecting Orange Drive to Griffin Road, approximately 650 feet west of SW 142 Avenue (Boy Scout Road). Specific information on the amount of capacity this would create has not been provided by the petitioner.

The petitioner has also offered to enter into a "Developer's Agreement" with the Town of Davie to ensure that all affected roadways will meet a Level of Service of "D" or better, prior to the issuance of any building permits. The petitioner is also required to satisfy Broward County concurrency review at the time of platting for roadways. Based on this information, staff believes the proposed rezoning is consistent with the Town's Future Land Use Plan Policies and that sufficient capacity will be available at the time of development.

Therefore, staff believes this location is a logical site for the proposed B-3 District, as it is located adjacent to a major Interstate, is consistent with the Town's Future Land Use Map and Comprehensive Plan Policies, is consistent with the approved annexation agreement, and will not be contrary to the public welfare.

At its April 5, 2000 meeting, the Town Council tabled this item and instructed the petitioner to prepare a comprehensive traffic analysis on the impact of the proposed development to the surrounding area. At the May 24, 2000 Planning and Zoning Board meeting, the applicant gave a brief presentation on the traffic study per Town Council's April 5, 2000 motion. The findings of this analysis will be presented by the petitioner at the June 7, 2000 meeting. A copy of the traffic analysis is attached as part of this report.

PREVIOUS ACTIONS:

- The Town Council deferred consideration of this item to its June 7, 2000 meeting, in order to provide the petitioner time to prepare a comprehensive traffic study of the impact of the proposed rezoning on the surrounding area (motion carried 5-0, April 5, 2000).

CONCURRENCES:

- The Planning and Zoning Board deferred consideration of this item to its March 22, 2000 meeting (motion carried 5-0, February 23, 2000).
- The Planning and Zoning Board recommended approval subject to the Developer's Agreement, the voluntary Deed Restrictions, and the conceptual master plan (motion carried 5-0, March 22, 2000).
- At its May 24, 2000 Planning and Zoning Board meeting, the petitioner presented a traffic analysis of the impact of the proposed development to the surrounding area for informational purposes only.

FISCAL IMPACT: Not Applicable.

RECOMMENDATION(S): Motion to approve subject to the voluntary Developer's Agreement, the voluntary Declaration of Restrictions and the Conceptual Master Plan.

Attachment(s): Traffic Study, Planning report with back-up, land use map, subject site map, and aerial.

RE: IMAGINATION FARMS CONCURRENCY REVIEW
TINTER ASSOCIATES PROJECT NO. 98-2044B

Dear Mr. Zimmerman:

At your direction, the firm of Tinter Associates, Inc. arranged for Broward County to prepare a Traffic Review and Impact Planning System (TRIPS) run in order to assess transportation-related concurrency impacts associated with the development of the above-referenced property. The studied parcels of Imagination Farms are generally located at the northeast quadrant of the interchange of I-75 and Griffin Road, in the Town of Davie, Florida.

CONCURRENCY REVIEW

Per our discussions, the TRIPS run was processed for the following development scenario:

<u>Parcel</u>	<u>Use/Size</u>
Griffin-Orange North	Commercial -310,000 S.F.
Seventy-Five East	Commercial -250,000 S.F.
Southpost	Single-Family Residential - 308 Units
Shotgun East	Single-Family Residential - 34 Units

The TRIPS run was performed considering the construction of a new bridge across the C-11 canal, connecting Orange Drive and Griffin Road at the approximate mid-point between SW 148th Avenue and SW 142nd Avenue. That bridge connection will significantly enhance access between the Imagination Farms parcels and I-75; this in turn will greatly reduce project traffic volumes on both Orange Drive and Griffin Road east of the new bridge, as exhibited by the TRIPS results. A planned widening to four lanes of Orange Drive/Shotgun Road from the new bridge to South Post Road will also serve to accommodate project traffic within acceptable level of service standards. A copy of the TRIPS results are attached.

Considering the County's TRIPS trip generation rates, the above-shown development scenario for the four parcels will generate at total of 30,071 trips per day, and Road Impact Fees are assessed at \$598,120. Seven overcapacity TRIPS links envelop any or all of the parcels in Compact Deferral Areas (CDA's). These overcapacity links and their respective project traffic impacts in vehicles per day (VPD) are as follows:

<u>Link No.</u>	<u>Segment</u>	<u>From</u>	<u>To</u>	<u>Project Trips(VPD)</u>
1072	SW 160 th Ave.	S. Corporate Rd	South Post Rd.	830
1643	SW 160 th Ave.	Emerald Park Cir.	Griffin Rd.	924
1243	SW 160 th Ave.	Griffin Rd.	Hunt Ridge Rd.	0
1590	South Post Rd.	Enterprise Ave.	SW 160 th Ave.	13
1665	Griffin Rd.	SW 160 th Ave.	Hawke's Bluff Rd.	1,159
674	Griffin Rd.	Hawke's Bluff Rd.	I-75	1,636
676	Griffin Rd.	SW 148 th Ave.	SW 135 th Ave.	775

Of course as you know, TRIPS is a dynamic system and the number of approved plat (committed development) trips on the network roadway links changes regularly. Therefore, CDA's continue to be created and/or eliminated periodically. Those CDA's that are impacted by traffic from a proposed development become "locked-in" on the date of submittal for final plat approval. The concurrency review would require the analysis of all CDA's affected at the time of final plat submittal for the subject property. Within ten days after final plat submittal, the Broward County Development Management Division (DMD) must notify the applicant as to which CDA's are impacted.

In the past, TRIPS has undergone a complete update annually, by which newly collected existing count data were incorporated, and developed and expired plats were eliminated from the approved plat database. This annual update had often resulted in significant changes to TRIPS conditions. However, based on information I recently obtained from the County DMD, no update to TRIPS is being processed this year. As such, the conditions reviewed herein are not expected to change significantly in the future.

ANALYSIS

As the table on page 1 shows, seven overcapacity TRIPS roadway links envelop the site in Compact Deferral Areas. Of these, Link No. 1243, SW 160th Avenue from Griffin Road to Hunt Ridge Road, will not be impacted by project traffic. Link No. 1590, South Post Road west of SW 160th Avenue will be impacted by 13 site trips per day. Impacts on the remaining links of Griffin Road and SW 160th Avenue are more substantial, ranging from 775 VPD to 1,636 VPD.

POTENTIAL STRATEGIES

One means of satisfying concurrency issues, and thereby obtaining plat or site plan approval, is to "build" capacity by implementing a traffic improvement measure that will accommodate the impact of the projected increase in site traffic on the critical links. "Built" capacity must increase the capacity of a road by at least as many trips as the project is expected to place upon the overcapacity link. Another means of satisfying concurrency is to "find" capacity by analyzing the link's traffic data, such as roadway characteristics and traffic volumes, as mentioned above. In that instance, enough capacity must be "found" so that the sum of existing, approved plat and site-traffic volumes would not exceed the revised Level of Service 'D' maximum capacity. This type of analysis is referred to as a "localized capacity study."

Four of the six impacted links are overcapacity to a level at which the results of a localized capacity study are not likely to demonstrate that the actual roadway capacities are adequate to resolve the project's traffic concurrency issues. It should be noted that for many of the

impacted links, committed development traffic comprises a significant portion of the total traffic volume. As such, it may be advantageous to perform a detailed review of area committed developments in order to determine if the County's estimate of trips associated with these approved plats are overestimated.

It is likely that traffic concurrency impacts for this project could be mitigated through the construction of various roadway improvements. It appears that adequate right-of-way is available for physical improvements and minimal utility interference is expected. Often, a lack of right-of-way and/or the interference of utility items such as FP&L power poles make requisite roadway improvement cost-prohibitive.

The following roadway improvements have been identified to potentially mitigate project traffic impacts from Imagination Farms:

- Construct an additional eastbound through lane along Griffin Road, commencing west of SW 160th Avenue, terminating at the southbound I-75 on-ramp, commencing again at the northbound I-75 off-ramp, and terminating east of SW 135th Avenue. This improvement is expected to provide more than adequate capacity gain to mitigate project traffic impacts for all the overcapacity segments of Griffin Road. Furthermore, since there is expected to be surplus capacity gain, it is expected to mitigate traffic concurrency impacts on South Post Road, qualifying as a "parallel facility" improvement.
- Construct improvements to the north and south legs of the intersection of Griffin Road and SW 160th Avenue. An add-on/drop-off through lane in the southbound direction is likely to provide more than ample capacity gain. Alternatively, and particularly in consideration of the above-described improvement to Griffin Road, the construction of a second southbound left-turn lane should provide ample capacity gain as well. The additional left-turn lane would likely provide a greater benefit to traffic operating conditions at the intersection than would the add-on/drop off lane, based on expected future demands for each of the two movements.
- Construct a southbound add-on/drop-off lane at the intersection of SW 160th Avenue and South Post Road.

The above-discussed add-on/drop-off lanes should be designed such that each add-on lane is at least 500 feet long, and each drop-off lane is at least 1,500 feet long. The design should incorporate the appropriate taper distances as well.

The above improvements are expected to provide more than enough capacity to resolve traffic concurrency impacts for Imagination Farms as identified in the TRIPS run. Furthermore, all improvements, including the bridge improvement and widening of Orange Drive/Shot Gun Road which are not related to concurrency, will serve to maintain or improve current levels of service upon the County Trafficways system. All affected Town of Davie Roads are expected to operate at Level of Service "D" or better.

Application #: ZB 1-4-00
Exhibit "A":

Revisions:

Original Report Date: 3/15/00

**TOWN OF DAVIE
Development Services Department
Planning & Zoning Division Staff
Report and Recommendation**

APPLICANT INFORMATION

Owner:

Name: Seventy-Five East, Inc.
City: Pembroke Pines, FL 33024
Address: 9000 Sheridan Street
Phone: (954) 431-7111

Agent:

Name: Howard J. Zimmerman
City: Pembroke Pines, FL 33024
Address: 9000 Sheridan Street
Phone: (954) 431-7111

BACKGROUND INFORMATION

Application Request: To rezone 27.24 acres of property from A-1, Agricultural District to B-3, Planned Business Center District.

Address/Location: General Address - 14901 Orange Drive/Generally located on the east side of Shotgun Road and the I-75 on-ramp.

Land Use Plan Designation: Commercial

Zoning: A-1, Agricultural District

Existing Use: Vacant land.

Proposed Zoning: B-3, Planned Business Center District

Proposed Use: Commercial retail and office.

Parcel Size: 27.24 acres (1,186,574 square feet)

Surrounding Land Use:

North: Vacant Land
South: Vacant Land, within Cooper City
East: Vacant land, and the Broward County Landfill.
West: Interstate I-75

Land Use Designation

Residential 1 du/ac
Commercial
Commercial and Recreation
and open space.
Transportation

Surrounding Zoning:

North: A-1, Agricultural District
South: E, Estate District, within Cooper City.
East: A-1, Agricultural District proposed as B-3, Planned Business Center, and RS, Recreation and Open Space District.
West: T, Transportation District

ZONING HISTORY

Related Zoning History:

- In 1995, the “Imagination Farms Settlement Agreement” was approved.
- Also on this agenda, the petitioner is requesting the adjacent 33 acres to the east be rezoned from A-1 to B-3 under petition number ZB 1-3-00.

Previous Requests on same property: None.

DEVELOPMENT PLAN DETAILS

Conceptual Master Plan:

- The conceptual master plan provided by the petitioner indicates a total of two buildings are proposed for this site. The plan indicates one of these buildings will be 250,000 square feet and does not list the other building square footage. The second building appears to be of a standard outparcel type building approximately between 2,000 to 6,000 square feet. Specific information regarding the types of uses to occupy the buildings, square footage, and access points have not been provided on the plan. Staff has discussed these issues with the applicant who has indicated the buildings will be used for retail uses and that access will occur via Orange Drive, however, site design and building design is in the preliminary stages and specific building square footage and circulation patterns may vary (see attached conceptual Master Plan).
-

Applicable Codes and Ordinances

Land Development Code Section 12-307, Review for Rezonings.

Land Development Code Section, 12-34(AA)(1), which requires a conceptual master plan for development of land within the B-3, Planned Business Center District.

Comprehensive Plan Considerations

Planning Area: The subject site falls within Planning Area 2. This area includes the westernmost section of the Town north of Orange Drive and south of SW 14th Street, and bound on the west by Interstate 75 and on the east by Flamingo Road. The predominant

acre. The Broward County Land Fill site, now closed, is programmed for redevelopment as a park site. The Boy Scout Camp is located to the north of the landfill site and is also used for recreational and open space purposes.

- This development is consistent with the existing “commercial” land use designation.

Broward County Land Use Plan: The subject site falls within Flexibility Zone 113.

The petitioner will be required to obtain Plat approval by the Town of Davie and Broward County prior to site plan approval. Concurrency review pertaining to roadways and utilities infrastructure will occur at the time of platting. This site lies within a compact deferral area, as identified by the Broward County Compact Deferral Map. The petitioner will be required to mitigate for the impact of the development to those affected overcapacity links at the time of platting.

Concurrency Considerations:

- According to the Broward County Compact Deferral Map, the subject site lies within a compact deferral area. The petitioner will be required to mitigate for the impact of the development to those affected overcapacity links at the time of platting.
- Orange Drive, west of Flamingo Road, is currently operating at a level of service (LOS) “A”, with “A” being the optimum operation condition.
- Griffin Road, east of I-75, is currently operating at a LOS “A”.
- Shotgun Road (154 Avenue), is currently operating at a LOS “A”.
- There is no information available relating to the current and projected traffic volumes for SW 142 Avenue, nor is it monitored by Broward County. However, the Town of Davie Comprehensive Plan indicates Shotgun Road, just west of SW 142 Avenue, is operating at an LOS “A” which may indicate that SW 142 Avenue is also operating at a high level of service.
- The petitioner has not provided specific building square footage information on the conceptual plan, therefore, staff is unable to calculate the exact projected LOS of Shotgun Road, Orange Drive and SW 142nd Avenue and Griffin Road may be if the proposed development is approved. However, when applying a realistic building coverage ratio of 17% for this site and the adjacent property being petitioned for B-3 zoning under application ZB 1-3-00 to the Broward County trips rate information, staff can determine that approximately 10,000 to 13,000 trips per day will be generated by each development. The resulting Level of Service would be below the Level of Service “D” adopted by the Town.

Applicable Goals, Objectives & Policies:

Future Land Use Policy 7-1: The Town shall endeavor to expand its economic base through expansion of the commercial sector of its economy.

Future Land Use Policy 7-3: Zoning regulations shall provide for varying intensities of commercial development, and direct application of appropriate districts where compatible with adjacent and surrounding residential uses.

Future Land Use Policy 7-4: Commercial land uses shall generally be located with access to primary transportation facilities including interstates, highways and arterials. Commercial uses located on arterial not designated by the Future Land Use Plan map as commercial corridors should be limited to the intersection of two arterial or arterial and interstates. Consistent with Policy 7-1, vacant land with such access shall be evaluated for potential commercial use.

Staff Analysis

The approval of the 1995 annexation agreement anticipated this site would be rezoned to the B-3 District consistent with the existing “commercial” land use designation. Therefore, the petitioner is requesting to rezone the subject property to the B-3, Planned Business Center District. The petitioner has also voluntarily offered to restrict certain uses permitted within the B-3 zoning district should this rezoning be approved (see attached list of uses to be restricted). This request is a continuation of the request for rezoning for the abutting property to the east, also on this agenda under application ZB 1-3-00.

This property differs from the abutting property to the east, only by the land to the north which is land use designated Residential 1 du/ac. Staff believes the impact of the proposed development to the residential land to the north will be minimal as an 8-foot high wall and 10-foot landscape buffer is required by code. The petitioner will also be contributing additional land along the north property line for a recreational trail which will increase the width of the buffer. Most importantly, the residential land to the north is currently vacant which allows the developer of this property to implement good design practices to further reduce any negative impacts to residential units placed along the north property line. These may include, landscaping above code, larger rear yard setbacks, or placement of roadways along the south property line of the residential land. All other properties to the east, west and south are buffered by similar or less intense land uses.

Staff believes that access should be limited only to Orange Drive to further reduce the impact to the abutting residential land. Restricting access to Orange Drive would reduce commercial traffic on Shotgun Road which provides access to existing and future residential homes.

As noted above, this development and the adjacent property requesting the B-3 zoning to the east (ZB 1-3-00) may increase traffic between 10,000 and 13,000 trips per day each, resulting in a Level of Service below the adopted Level of Service “D” by the Town. The petitioner acknowledges that improvements are necessary to Orange Drive to accommodate the projected site traffic, and is proposing to expand the roadway from two lanes to four lanes between SW 142 Avenue (Boy Scout Road) and SW 154 Street (Shotgun Road). The petitioner is also proposing a bridge across the new river canal connecting Orange Drive to Griffin Road, approximately 650 feet west of SW 142 Avenue (Boy Scout Road). Specific information on the amount of capacity this would create has not been provided by the petitioner.

The petitioner has also offered to enter into a “Developer’s Agreement” with the Town of Davie to ensure that all affected roadways will meet a Level of Service of “D” or better, prior to the issuance of any building permits. The petitioner is also required to satisfy Broward County concurrency review at the time of platting for roadways. Based on this information, staff believes the proposed rezoning is consistent with the Town’s Future Land Use Plan Policies and that sufficient capacity will be available at the time of development.

Therefore, staff believes this location is the most logical site for the proposed B-3 District

located adjacent to a major Interstate, is consistent with the Town's Comprehensive Plan Policies, is consistent with the approved annexation agreement and will not be harmful to the public welfare.

Findings of Fact

Section 12-307(A)(1):

- (a) The proposed change is not contrary to the adopted comprehensive plan, as amended, or any element or portion thereof;
- (b) The proposed change will not create an isolated zoning district unrelated and incompatible with adjacent and nearby districts;
- (c) Existing zoning district boundaries are logically drawn in relation to existing conditions on the property proposed for change;
- (d) The proposed change will not adversely affect living conditions in the neighborhood, based on the information provided;
- (e) The proposed change will not create or excessively increase automobile and vehicular traffic congestion above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety, based on the information provided;
- (f) The proposed change will not adversely affect other property values;
- (g) The proposed change will not be a deterrent to the improvement or development of other property in accord with existing regulations, based on the information provided;
- (h) The proposed change does not constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public;
- (i) There are substantial reasons why the property cannot be used in accord with existing zoning due to the existing "Commercial" land use.
- (j) The proposed zoning designation is the most appropriate designation to enhance the Town's tax base given the site location relative to the pattern of land use designations established on the future land use plan map, appropriate land use planning practice, and comprehensive plan policies directing land use location.

Staff Recommendation

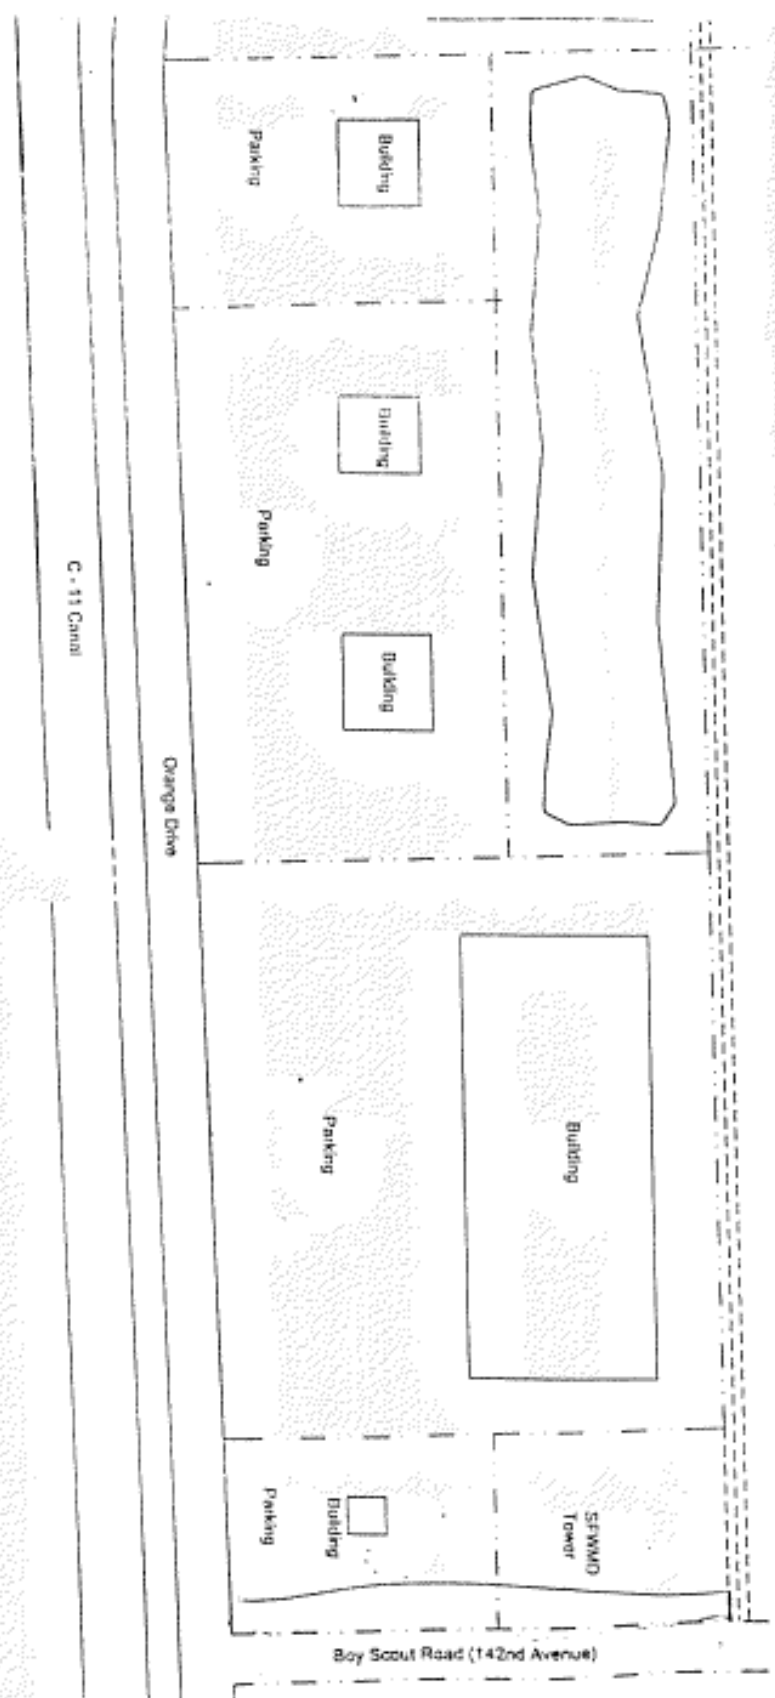

Recommendation: Based upon the above and the overall finding of facts in the positive, staff recommends **approval** of application no. ZB 1-4-00, subject to the "Developer's Agreement" offered by the petitioner as noted in the planning report, the voluntary "Declaration of Restrictions", and the conceptual master plan attached hereto.
